

Dear Senator Gerratana and Representative Ritter and members of the Public Health Committee,

I am writing to you to request your support of Bill #5915: An Act Concerning Health the Practice of Classical Homeopathy.

I believe the public should have access to practitioners of alternative healing methods such as Classical Homeopathy. The passage of this bill will allow highly trained and certified classical homeopaths to practice in Connecticut.

My understanding is an archaic law is preventing these homeopaths from practicing in the State while many other states have free access to classical homeopathy. Passage of this Bill would rectify this problem. I encourage your support.

I have a cousin who is a Certified Classical Homeopath who has helped us tremendously with our son. I would like to refer other parents to her, especially parents of children with learning and behavioral problems. I would like to see homeopaths be able to practice in Connecticut, I don't understand why this can't be.

Thank you so much for your time,

Justine LaPenna
